HENS LAYING WELL IN

EGGS' HIGH PRICE RECORD The hens in the egg laying contest at Storrs are holding the stride they struck more than a month ago. Last week they picked up another 200 eggs over the average for the same period for the last seven years. This means that at the Very Rev. Samuel R. Colleges ... Hartford: seven years. This means that of thirst Church Cathedral, Hartford: seven years. This means that was a first first fine of the four winter months, the period of high priced eggs that are hard ried of high priced eggs that are hard that hans have exceeded their o get, these hens have exceeded their spected lay by a margin of 3,000 eggs to seems fair to assume that the average yield of 35 eggs per hen for the irst four months constitutes satisfactory winter production. At any rate as as go it is much better than the per ormance the average farm ben. On this sais, the following table shows the number of birds in each breed in the ontest, the number of eggs they have to in the four winter months and heir index number of relative rating

No. Birds No. Eggs Rating

with a mark of 56 eggs. A Connecticut ten of White Wyandottes entered by woodbridge Orchards from woodbridge that tied for third place last week was the advance in agricultural values tending the stage of the stag that tied for third place last week was third without opposition. This pen laid ing to facilitate in agricultural values tending to facilitate injudication of loans at banks and the rapidity of movement of products to markets.

More satisfactory marketing and production of 43 eggs. The total lay for and other products as well as grain, the above the peace of the personal values of the products as well as grain, the board stated.

The four leading proced are as follows:

The proceduction of the grain that the compromise plan was shown and in the congruence of the second that the products as well as grain, the board stated.
